?# StudyRAG Investor Pitch Deck 2026

> *Tagline:** The AI Tutor That Knows Exactly What You're Studying.*

SLIDE 1 COVER

StudyRAG

The AI Tutor That Knows Exactly What You're Studying.

Upload your course documents. Get answers, flashcards, quizzes, and a personal AI tutor grounded in YOUR curriculum

Launching March 2, 2026

Personalized Learning RAG-Powered Adaptive AI Tutoring

Students Are Drowning in Generic AI

Static Study Materials

Textbooks and slides don't answer questions. Students spend hours rereading the same pages without ever knowing if they've actually mastered the content.

Generic AI Hallucinations

ChatGPT and other LLMs make up facts, cite wrong sources, and have no idea what subject the student is actually studying.

Zero Personalization

Existing AI tools treat every student the same. There's no adaptation to skill level, weak topics, or the specific course curriculum.

> *76% of college students report feeling overwhelmed by study material yet only 15% use any AI study tool effectively.*

SLIDE 3 OUR SOLUTION

Context-Aware AI, Built Around Your Documents

How StudyRAG Works

Step	Action	Detail
01	Upload	PDFs, Docx, TXT your notes, slides, or
02	Index	Smart context-aware chunking + page
03	Learn	Ask Sage (our AI tutor) anything. Get cited,
04	Grow	Auto-generated quizzes, flashcards & modules adapt as you improve

Key Differentiators

- No Hallucinations Answers grounded in your actual documents with direct citations
- Adaptive Mastery AI tracks your skill level from Beginner Advanced in real-time
- Full Study Suite Tutor + Flashcards + Quizzes + Simulations + Exam Prep in one place
- Your Data, Your Docs Completely private; documents never leave your personal vault

SLIDE 4 PRODUCT FEATURES

A Complete AI-Powered Learning Platform

Feature	Description
Sage AI Tutor	Context-aware tutor with voice input, multi-doc chat, mastery
Learn Modules	Auto-generated structured modules with objectives, key concepts,
Smart Flashcards	SM-2 spaced repetition algorithm. Auto-generated from uploaded
Adaptive Quizzes	MCQ & open-ended quizzes focused on weak topics. Full analytics
STEM Simulations	Interactive physics/chemistry simulations (projectile,
Exam Prep Mode	Full mock exams, essay evaluation, step-by-step STEM problem
Audio Overviews	NotebookLM-style AI-generated conversational audio summaries of
Analytics Dashboard	Study streaks, mastery scores, weak topic detection, AI-powered study recommendations

SLIDE 5 MARKET OPPORTUNITY

A Massive, Fast-Growing Addressable Market

Market	Size	Growth
AI in EdTech (2024)	**$5.1 Billion**	38% CAGR
AI in EdTech (2030 proj.)	**$38+ Billion**	
RAG Market (2024)	**$1.2 Billion**	49% CAGR to 2030
Global Student Population	**1.5+ Billion**	

Market Segments

- TAM 1.5B global students (university + high school)
- SAM 220M university students globally
- SOM Year 1 target: 50,000 active users

The personalized AI learning market is the fastest-growing segment of EdTech, with no dominant platform grounded in student-owned documents.

SLIDE 6 COMPETITIVE LANDSCAPE

StudyRAG Leads Where Others Stop

Platform	Doc-Grounded	Adaptive AI	STEM Simulations	Private Docs	Pricing
StudyRAG	[YES]	[YES]	[YES]	[YES]	Free / $12/mo
StudyFetch	[NO]	[YES]	[NO]	[NO]	$9-$20/mo
Khanmigo	[NO]	[YES]	[YES]	[NO]	$4-$8/mo
Quizlet AI	[NO]	[NO]	[NO]	[NO]	$3-$8/mo
Mindgrasp	[NO]	[NO]	[NO]	[YES]	$7-$14/mo
NotebookLM	[YES]	[NO]	[NO]	[YES]	Free

StudyRAG is the only platform combining document-grounded RAG + adaptive AI + STEM simulations + full privacy at a competitive price.

Built on State-of-the-Art AI Infrastructure

RAG Pipeline

1. Document Upload PDF, DOCX, TXT via Cloudinary CDN
2. Chunking & Indexing Smart context-aware chunking + page-level indexing
3. Embedding Google Gemini `text-embedding-004`
4. Vector Store Supabase pgvector with cosine similarity search
5. Augmented Generation Gemini 2.0 Flash + retrieved context + inline citations
6. Adaptive Response Mastery-aware prompt engineering (Beginner Advanced)

Tech Stack

Layer	Technology
Frontend	React + Vite + Tailwind CSS
Backend	Node.js + Express REST API
AI / LLM	Google Gemini 2.0 Flash
Database	Supabase PostgreSQL + pgvector
Storage	Cloudinary CDN
Search	Semantic cosine similarity search

SLIDE 8 BUSINESS MODEL

Freemium SaaS with Clear Upgrade Path

FREE TIER $0/month

- Up to 5 library documents
- Basic RAG retrieval
- Auto-generated quizzes
- 20 flashcards/day limit
- Web link indexing (limited)
- Community support

PRO TIER $12/month Most Popular

- Unlimited library storage
- Sage Pro reasoning model
- Unlimited flashcards & quizzes
- Deep context citation engine
- Excel & STEM LaTeX support
- Adaptive learning analytics
- Audio overview generator
- Priority 24/7 support

Future Revenue Streams

- Institutional licensing (universities & high schools)
- API access for developers
- White-label platform for EdTech companies
- LMS integrations (Canvas, Blackboard, Moodle)

SLIDE 9 TRACTION & ROADMAP

Pre-Launch, Fully Built, Ready to Ship

What We've Already Shipped

- Full RAG pipeline with pgvector semantic search
- Sage AI Tutor with voice input & adaptive mastery levels
- Automated module, flashcard & quiz generation
- Interactive STEM simulations (on-demand)
- Audio Overview (NotebookLM-style podcast summaries)
- Accessibility suite (reading ruler, break reminders, dyslexia mode)
- Analytics dashboard with streak & mastery tracking
- Gamification: XP, streaks, achievement system

Early Traction (Pre-Launch)

- 20 early access users testing the platform ahead of public launch
- Positive qualitative feedback on Sage tutor and module generation
- Launching publicly: March 2, 2026
- Subscription monetisation activating at launch

2026 Roadmap

Period	Milestone
March 2026	**Public launch** subscription goes live
Q2 2026	University pilot program (23 schools), SEO content push
Q3 2026	Mobile app (iOS + Android), institutional dashboard
Q4 2026	LMS integrations (Canvas, Moodle), 5K+ active user target

Community-Led Growth to Institutional Scale

Phase 1 Launch (MarchSept 2026 | Target: 1,0005,000 users)

- Reddit & Discord study communities (r/premed, r/learnprogramming, r/studytips)
- University student clubs CS, Medical, Law schools
- TikTok / YouTube study-creator partnerships
- Free tier as viral acquisition engine; freemium conversion to $12 Pro

Phase 2 Scale (Q4 20262027 | Target: 20K50K users)

- Formal university pilot programs with learning analytics
- SEO content marketing (study tips, RAG explainers, exam prep guides)
- Integrations with Canvas, Blackboard, Moodle
- B2B institutional licensing (seat-based pricing)

Phase 3 Enterprise (20272028 | Target: 100K+ users)

- National higher-ed partnership agreements
- White-label platform for corporate training
- Mobile-first international expansion (Southeast Asia, LATAM)
- Vertical specialization: Medical, Law, Engineering AI tutors

SLIDE 11 FINANCIALS & THE ASK

Lean by Design Pre-Revenue, Near Zero Burn

Current Status (March 2026)

- Revenue: $0 subscription launches March 2, 2026
- Active users: 20 (early access / testers)
- Monthly burn: ~$150 (infrastructure only)

Monthly Operating Costs

Service	Est. Cost	Notes
Google Gemini API	$0$30	Free tier covers ~90% of usage
Supabase (Pro Plan)	$25	DB, Auth, Realtime, vector store
Cloudinary (Plus)	$89	Document CDN storage
Hosting (Render + Vercel)	$7$20	Backend + frontend
Total	**~$150/mo**	Extremely lean

Revenue Projections (post-launch, conservative)

Period	Pro Users	Monthly Revenue
Month 3 (May 2026)	50100	$600$1,200
Month 6 (Sept 2026)	200500	$2,400$6,000
Month 12 (Mar 2027)	1,0003,000	$12K$36K
Year 2 (2028)	5,00015,000	$60K$180K

Assumes 35% freemium Pro conversion. No institutional revenue included in these figures.

> *Break-even: ~1,250 Pro subscribers** ($15K/mo revenue vs ~$150/mo ops cost @ current scale)*

THE ASK Seeking $250,000 Seed Round

Use of Funds

- 40% Infrastructure scaling & cloud costs
- 30% Mobile app development (iOS + Android)
- 20% University partnership program & sales
- 10% Marketing & growth experiments

Driven by Passion for Learning & Technology

[Founder / CEO] Full-Stack AI Engineer

RAG Systems, LLM Engineering, Backend Architecture, Product Vision

[Co-Founder / CTO] ML & Infrastructure

Google Gemini, Vector Databases, Supabase, DevOps, Scalability

[Head of Product] EdTech & UX Design

Learning Science, Student Experience, Pedagogy Design, Growth

[Advisor] Education Industry

University Partnerships, Curriculum Design, Institutional Sales

SLIDE 13 CLOSING / CALL TO ACTION

The Future of AI-Powered Learning Is Personal.

StudyRAG is not just another chatbot it's the first AI tutor that truly understands what YOU are studying, adapts to YOUR pace, and grows smarter with every session.

Every student deserves a private tutor. We're making that a reality.
